Safe Buying Tips

Description

1950's early 60"s rare 6 slot Mags, made by American Dragmaster. Aluminum. 5" spacing on holes, 3" back space, 6 3/4 wide, fits any 5" bolt patterns,(I have a jig that measures bolt patterns & that's what it says). You'll have to do your homework as to what they fit, Ford, Olds, Buick, Caddy? An older Hollander book would probable give you some info. I don't have any other info. No curb rash, it

doesn't appear as if they put the center caps on, the threads seem to be unused. Beautiful condition, hardly used. Thanks.

Questions from other members

Question & Answer

Q: Otto, Please correct me if I am wrong. my 1957 371 olds engine would need early rocker arms, and 1956 324 to 1958 371 cam. Can you tell me how to tell...more

A: As strange as it sounds, that is correct! The rockers are interchangable '49-'58. (Factory ratios varied from 1.5 to 1.8 along the way.) But in '56 Olds...more

Description

Item Specifics - Item Conditon

Condition: **Used**

OK Early Olds guys, here's an ISKY solid roller cam. It is used but v slightly as it shows no wear on the distributor gear or on the lobes. It' Magnum Track grind with .505 lift, 320 degrees duration, Intake timi opens 52 degrees before TDC -closes 88 after BDC, exhaust opens 88 BDC and closes 52 after TDC. Lash cold is .028. I'll include a copy c original "Installing an Isky cam" instructions, not that you need it.

The end pic of the cam with "Iskenderian" hand etched means this ca manufactured at the time when cam grinders started boot legging Isk This really pissed Ed off so he started labeling them by hand. Quite a piece. Later cams have "ISKENDERIAN" stamped on.

It fits all the 303"-324" engines '49-'55. Does not fit '56, 324" engine:

Boring search words; nostalgia Oldsmobile vintage racing speed parts flathead hemi NHRA SCTA nas 52 53 54 55 65 57 58 1949 1950 1951 1952 1953 1954 1955 1956 1957 1958
