1st. Estimate

12.02.2005

Mark,

I made a list of parts that I think we should have to begin. Included is a new exhaust system 2". The exhaust system I have for a Shelby is 2 1/4" and is Jet Coated silver. The new system would come unpainted. It would cost about \$300.00 to have it Jet Coated black. There probably will be some more parts needed when we get started. I charge \$65.00 an hour for labor. I think you could spend at least a 40-hour week and maybe even two. My best guess would be between \$5500.00 and \$8500.00. This would take care of replacing the parts listed and detailing the engine, engine compartment and some of the undercarriage. I need payment on the parts because some of them have to be fabricated. Call me when you look this over.

Thank You,

  
Rand E. Bailey

THESE PARTS ARE HERE THE OTHER PARTS  
SHOULD ARRIVE BY 03/27

## *2nd Estimate*

03.20.2006

Mark,

Attached is a list of parts to consider in the future for your Shelby. I am sure the car is going to go down the road OK after our first go around detailing and repairing. But to add longevity and appearance you may move to consider leaving the car here for a little longer. Things like brakes are functioning but will more than likely need attention after the car is driven. I believe that this car has been sitting in storage for some time. After the snow melts I will have a chance to look for more used parts. Things like wiring and electrical components would make a big difference in the overall appearance. So add about \$4500.00 in labor to the parts list \$1203.72 if you choose to include this latest proposal. We can be flexible on what you choose to do. I just do not want to tie the car up for very long. I will be in touch.

Thank You,

A handwritten signature in black ink, appearing to read "Rand E. Bailey".

Mark,

Here is another estimate of parts for I think the final go around. You are probably looking at the parts price \$1107.48 plus \$2000.00 in labor. Included in this labor of course would be a front alignment and ride height adjust. This does not include wheels and tires. If all parts are in stock this should take about three weeks to complete. Craig Conley indicated that we are the first on his list to receive wheels. They should be arriving very soon. I will sell you tires at my cost, 215/65/R15 Goodyear Eagle GT/HR at \$75.00 each. The battery came in and is already installed. Call me when you have had time to review this.

Thank You,

A handwritten signature in black ink, appearing to read "R. E. Bailey".

Rand E. Bailey
